

AITech Conference is a simple, affordable solution for your audio and Web conferencing needs with the convenience of online control!

AITech Audio & Web Conferencing Services

AITech Conference is a powerful and flexible audio and Web conferencing service, giving you control over your own conferences via the Web or the phone.

With AITech Conference you can save money without compromising the quality of your call. The AITech system utilizes the world market leader, audio conferencing bridge from Spectel.

Here are a few of the great features of AITech Conference:

- Feature-rich Web interface
- Best-in-class Spectel conference bridge technology
- State-of-the-art data center collocation in Las Vegas
- Easy-to-understand per-minute pricing

How Do I Sign-Up?

It's easy and fast to sign-up for an account. You can be scheduling conference calls in just a few minutes. Call AITech Customer Service at 1-800-300-5408 to start conferencing today!

How Does It Work?

The audio conference bridge is connected to the public telephone network via dedicated digital lines. Domestic and International calls are supported.

To hold a conference, simply provide your attendees with your toll-free access number and give them the attendee security code.

Ultimate Conference Control via the Web

Our Web interface presents real-time Caller-ID information through an intuitive Conference Viewer Control Panel, and even allows your clients to dial-out to bring in participants! You can also mute and hang-up on callers, and put them into sub-conferences.

Example of the live conference call control panel:

| Caller | Phone # | Type | Mod | Mute | Main | Sub | Hangup |
|--------|------------|---------|-----|-------------------------------------|-------------------------------------|--------------------------|-------------------------------------|
| 1 | 9522240172 | dial-in | | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 2 | 9528295601 | dial-in | Yes | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 3 | 9528295511 | dial-in | | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Conference Control via Phone

Most of the moderator conference controls available from our Web interface are duplicated using your telephone keys. This allows you to hold conference calls when traveling or from your cell phone. In addition, attendees can "self-mute" themselves, and the moderator can secure the conference or put it into lecture mode.

Why should I choose AITech's Conferencing Services?

AITech Conference is easy to use and gives you ultimate moderator control via our online control panel. You can also choose to control conferencing options via your phone.

Our service is reliable and affordable with easy-to-understand per minute pricing. Our goal is to save you money and to offer you superior service for your audio and Web conferencing needs.
