AiTech's Business Class DSL & T-1 Internet Service

You will enjoy the convenience of quickly sending and receiving large data or graphic files. You can also run email or Web servers on-site and run mission critical applications worry-free. Select the speed that meets your needs and upgrade at any time. Professional installation is guaranteed within 30 days. Service Level Agreements on network performance available.

AiTech's Residential DSL Internet Service

AiTech brings speed and reliability home at an affordable price. Freeing up your phone line while you are online and "always-on" convenience are just a few reasons to order DSL for your home. Choose from our wide range of speed and service options to accommodate your needs.

Unlimited 56K Dial-up Internet Service

AiTech provides fast, reliable and commercial-free dial-up Internet access to over 1,200 cities in the US and Canada. Here are a few reasons we think you will find our service superior to the competition:

- Unlimited Internet access
- Over 40,000 access numbers
- 5 free email accounts
- Webmail access
- Family-friendly filtered service option
- Up to 50% savings over other providers
- No contract commitments
- Live customer service and support

FastNet Go 5x Faster!

FastNet allows you to surf at 5-6X faster than standard 56K dial-up, making FastNet the high-speed Internet solution for a fraction of the cost. It is easy to install, uses your existing phone line and modem, runs seamlessly and doesn't alter any existing software.

FastNet comes with all the great features of our Standard Service plus you get:

- Browsing speeds up to 5-6X faster
- Free Pop-Up & Floating Ad Blocker
- Free In-Page Ad Blocker
- Free Email Accelerator

Ask about our Affinity Group Programs!

We have the ability to customize Internet service programs for special interest groups. We can provide a custom built Web site for dial-up service utilizing a custom domain and interface specific to a group's requirements.
